

2017-2018 Undergraduate Catalog Amendments
August 2017

(pg. 7)

Add:

ELCI presents a structured, standardized curriculum at six different levels of English proficiency. Students enrolling in the program will take a placement exam to determine which level is appropriate for their current language needs, and will continue full-time enrollment in the program until they have successfully completed the required sessions. Successful completion involves earning an 80% score in each session, and meeting the minimum proficiency requirements on the program's exit exam. A student who has successfully completed the ELCI curriculum will not be required to furnish a TOEFL or IELTS score to apply for admission to credit-bearing Park courses.

Though ELCI coursework does not provide credit toward graduation, ELCI students are Park students, with all the rights and responsibilities that pertain to that status.
